Introduction to C and Unix

by

Kevin Bao, Cheng Su

Contents

Overview

1. 5 projects
2. Use C
3. Vedios are useful
4. Start early
5. Mind your code quality

What is a pointer

1. For now, treat the memory as a giant array
2. Pointer is like an index
3. How can we know the size of the data?

Man

1. man man
2. An interface to the on-line reference manuals
3. We will mainly use man 2 and man 3

Demo
